

Germms are working overtime

Clean up with DURABLE Computer Cleaning!

BREAKING NEWS

There are still millions of germ ridden desks in the UK!

Don't let your computer workstation become a breeding ground for nasty and infectious bacteria. Clean up with DURABLE computer cleaning and stop the germs having the last laugh.

DURABLE computer cleaning products have been specially formulated with the most up-to-date ingredients to ensure safe and effective antimicrobial cleaning of all your computer equipment and hard surfaces. The comprehensive range is environmentally friendly meaning that all products are alcohol free, non toxic and non hazardous. All bottles and tubs are 100% recyclable and cleaning wipes are 100% biodegradable.

FACT!
Telephone
25,127 microbes per square inch

FACT!
Mouse
1,876 microbes per square inch
